

## WELCOME TO OUR FARM THE VILLAGE BUTCHERY.

Ours is a family butcher offering a modern take on traditional butchering for meat that tastes as it should taste. We offer affordability, accessibility, and excellent service using traditional and honest butchering methods.

At Our Farm, producing high-quality meat isn't just about the taste; it's about a considered sustainable process that puts more into our world than it takes.

It's about the animals, the planet, and you.

Our business is built on understanding where our produce comes from, how it lived, and most critically, how it's farmed. We produce beef at our own farm, Forrest View in Boyup Brook, that is high quality, fully traceable, and produced in a low input, sustainable, farming system.

Ours are happy herds which graze to maturity the way nature intended – not like mass commercial farming methods that are impacting our planet.

We are passionate about the planet and every process and decision we make is about lessening our footprint. We make sustainable choices at every level. From our farming methods and handling of animals to our shop fit out and packaging, every element is as sustainable as possible.

We are the essential link between you and the farmer. Every member of our team wants to share their knowledge so you know how to shop and then cook each part of the meat to juicy, charred perfection.

At Our Farm, we have beautiful meat for everybody.
